

The Caribou - 30-Second – Captioned for the Visually Impaired

MUSIC: "HINTERLAND WHO'S WHO" THEME

ANNOUNCER (V.O.):

Found across Canada, the elusive woodland caribou are well adapted to life in Canada's forests.

[Caribous in the snow and running in the forest]

Their wide hoofs allow them to dig for food in winter and travel great distances in summer.

[Caribous running in the forest]

But because of habitat loss and predation, woodland caribou are at risk.
